The property is understood to have been built in the mid 1960s and has since been substantially extended and much improved. Heating is provided by gas fired central heating plus the additional benefit of solar panels which make a good energy saving. The bungalow is easily maintained with uPVC sealed unit glazing and fascias.

The entrance hall has a useful cloaks hanging area and gives access to all 3 double bedrooms and a shower room. The kitchen also leads off the hallway and includes an extensive range of base units wall mounted units and worktop surface. There are various integrated appliances including oven, hob, dishwasher and water softener.

Leading off the kitchen is a large garden room, currently being used as a dining room and the perfect place to relax and enjoy views of the garden. There is a side lobby/utility area that also leads to an additional shower /cloakroom. The sitting room is another well-proportioned room with a bow window overlooking the front gardens and a gas flame effect feature fireplace. Double doors lead into the side conservatory which is partly currently being used as a home office.

Outside

The property is set back a good distance from the lane with front gardens being laid mainly to lawn. A driveway provides extensive parking and access to the side of the bungalow where there is a large carport.

Double 5 bar gates at one end of the carport give access to a further block paved driveway leading up to the double garage. The rear gardens afford an excellent degree of privacy and are laid again to lawn with raised flower borders and a variety of timber outbuildings including a shed, potting shed and summer house.
