The shop benefits from large display windows to the front and the side. The space is versatile and usable, with an access hatch to the basement on the lower level, door up to the first floor apartment, and a rear door to the basement.

Basement

The basement comprises 4 distinct areas; a large open storage space, and 3 further storage rooms.

Internally, there is a door to the basement from within the retail unit with an additional access hatch, and there is also a separate door from the external loading area.

Garage

To the side of the building is a large area, offering vehicular access for loading. To the rear of this is a large storage garage measuring approximately 5.5 x 4.5m.

Studio Apartment

Should the new owner wish to use the apartment as extra storage, there is a door to apartment from the retail area. Alternatively, the property could be separate accommodation following refurbishment works.

To the side of the building, behind a wooden

gate, there is a set of metal steps leading up to the property but this is currently in disrepair.

Lounge

Large living area with floor to ceiling glazed doors opening out to the front terrace. The room also has a feature fireplace.

Kitchen

The good-sized kitchen has a window and door to the rear, and this leads out to the rear terrace area.

WC

Cloakroom with WC and wash hand basin.

Please Note

We are advised that mains gas, electric, water and drainage is connected to the property.

The property is in the middle of Saundersfoot village, with the High Street, and various car parks nearby. When driving into the village from Stammers Road or the B4316, it's on the left-hand side before the roundabout and Harbour car park.
