THE DAIRY

Named after its historical purpose, this home is the epitome of modern living, spanning over 5,500 square feet & having a fabulous open plan kitchen/dining/living area for family and friends, this is the perfect hub of the home and we are confident will impress a variety of buyers along with its garden room which has a pleasing aspect over the adjoining paddock. Some architectural features have been left exposed, such as a number of brick archways creating a uniqueness and reminder to the property's age and past, combine this with modern attributes such as high quality, German kitchen, a number of bi-folding doors, underfloor heating to the ground floor and high quality sanitary suites are just a few focal points to note on this sympathetic renovation. To the first floor, there will be 5 bedrooms, two ensuite bedrooms plus a family bathroom. The principle room will also have a sizeable dressing area.

As well as substantial accommodation inside, there will also be a garage with workshop & additional mezzanine floor above which will lend itself to a variety of uses, all neatly positioned with 1.25 acres of paddock to enjoy!

The project is at its early stages at present, but as perviously mentioned, the home is set to be finished towards the end of 2023.
