A useful entrance porch with uPVC door gives access via a composite door into the entrance hallway featuring a contemporary vertical radiator with mirror. Herringbone-style Amtico flooring with underfloor heating runs throughout the ground floor. The generous living room centres around a Dunsley Highlander 3 multi-fuel stove set within the chimney breast, with an oak mantel above and bespoke barrel wood storage. The room flows seamlessly into the dining area, where there is access to a useful cloakroom with fitted storage cupboard, ideal for coats and shoes. A separate door leads to the downstairs WC, fitted with a wall-mounted wash basin, WC and feature tiled wall. An understairs cupboard houses the boiler, installed in 2020.

Undoubtedly the heart of the home is the impressive breakfast kitchen, flooded with natural light from a side-facing window, two Velux roof windows and French doors opening onto the rear garden. The kitchen is fitted with a range of shaker-style wall, base and drawer units and a central breakfast bar, complemented by contrasting Mirostone worktops and upstands. Thoughtful additions such as USB charging sockets enhance the space whilst an under-mounted 1 and ½ bowl sink with mixer tap and drainer add practicality. Integrated appliances include an induction hob with extractor above, an electric oven, fridge freezer, dishwasher and washer/dryer.

To the first floor, the landing features an Oak and glass balustrade, a useful storage cupboard over the bulkhead, and access hatch for the loft which is boarded and insulated, with a pull-down ladder. The principal bedroom is positioned at the front of the property and is a spacious double, while the adjacent bedroom is a single. Both rooms enjoy far-reaching views to the front. A further double bedroom overlooks the rear garden.

Completing the accommodation is the fully tiled, stylish house bathroom, fitted with a white three-piece suite comprising a low-flush WC, a square wash hand basin set within a vanity unit, and a bath with rainfall shower, handheld attachment and glass shower screen. The bath is internet ready, controlled via an app for both temperature and filling level. A heated towel rail and LED mirror complete the room.
