## END TERRACED COTTAGE WITH DETACHED BARN ANNEXE

Located at the heart of the popular and historic village of Bonsall is this charming stone-built end-terraced cottage with a detached stone barn. Standing at one end of a row of three attractive cottages, which make up the locally known 'Bakehouse Yard', the main house is full of character and offers a good amount of space. The accommodation itself briefly comprises spacious dining kitchen along with a good sized living room on the ground floor and two double bedrooms, a large bathroom and a study on the first floor.

Across the yard stands an attractive and historic stone barn which has the benefit of full planning permission as ancillary accommodation for a dependent relative. The property offers great versatility but as it stands it currently incorporates a garage, utility room/workshop, shower room, office and a fantastic open plan living room on the first floor. The barn has privately owned solar PV panels on the roof and there is off road parking for two cars, with an electric vehicle charging point.

Both the cottage and barn benefit from gas central heating, each with its own boiler and with the exception of the carved stone mullion in the barn, all windows are bespoke hardwood double glazed.

To the front of the cottage is a pleasant patio garden and beyond the barn is further outside space with a lawned garden and a separate seating area. Viewing Highly Recommended. No Upward Chain.
