OUTSIDE STORE ONE 11'6" irregular shape x 10'0" max

The garden has been well designed with wildlife and nature in mind, rather than simply creating a formal space. This second building was created to be used as a bar, with water power and light already supplied, giving the new owners flexibility of use and lots of potential.

OUTSIDE STORE TWO

Another of the outside structures, again with many uses and adding to the storage capabilities externally. There are power sockets and light.

SHED

Finally a wooden shed with light is at the top of the garden, ideal for a tool store.

CONNECTIVITY AND WORKING FROM HOME

The home has been set up with working from home and technology in mind. Every room is networked and has satellite cable connections, plus there is an abundance of power sockets, especially in the lounge, where there are extra sockets and data points, behind where the TV would sit.
