Accommodation

Please see the floorplan for room measurements and the property layout.

Ground Floor

An impressively large new composite front door, leads into a bright and welcoming hallway. This wonderfully spacious home offers a fantastic mix of period charm and modern convenience across multiple levels. All the sash windows in the house are double glazed and have been recently refurbished.

The main kitchen is sleek, contemporary, with period features, newly fitted four years ago, integrated dishwasher and induction hob, space for fridge freezer, stunning island with bar seating. The kitchen opens directly onto a private courtyard via bi fold doors.

There is a formal living room at the front of the property with bay window, stripped wood flooring, feature fireplace and shelving into the alcoves.

Lower Ground Floor

The basement level is currently configured as a self-contained Airbnb, complete with its own kitchen, reception space, modern conservatory, office, shower room, generous storage, and access to a second courtyard. The Airbnb offers a significant additional income stream. If you chose not to rent out the light and airy basement but instead incorporated it into the main house then the basement kitchen would become a sizeable utility for the main house and the additional rooms would provide plenty of reception rooms for family members to all have their own space.

Upper Floors

The upper floors are home to five generous double bedrooms, including the master bedroom with a freestanding

bath. In addition to the shower room in the basement, there are two further shower rooms on the upper floors.

The top floor benefits from multiple skylights and stunning views via three large roof windows.

Several rooms throughout the house are fitted with Ethernet connections, making this home ideal for remote working.
