Accommodation

Please see the floorplan for room measurements and the property layout.

Ground Floor

Upon entering, the property has hallway with stairs rising to the first floor. The sitting room is positioned to the right and features an attractive bay

window. Moving through the hallway, the dining room sits ahead having direct access to the rear garden, with the kitchen to its side. Together, these spaces offer clear potential to be opened up into a contemporary kitchen-diner, creating a sociable and modern ground-floor layout. The kitchen also connects to a practical utility area, which provides access to the garage.

A substantial garage, measuring approximately 24 feet in length, runs alongside the house and offers excellent storage or potential for conversion, subject to the necessary permissions.

First Floor

Upstairs, the landing leads to four / five bedrooms along with the family bathroom. Three of the bedrooms do interlocking and form part of an extension added in the 1960s above the former car port. The two bedrooms on the right are well balanced in size, with the rear room enjoying pleasant views over the garden.

Outside

To the front, a good sized driveway provides off-street parking for two to three vehicles. The driveway provides access to the attached garage.

The rear garden faces south and is generously sized, making it ideal for families. It features a combination of patio, lawn, and a vegetable area, offering plenty of flexibility for future landscaping or redesign.

There is further opportunity to extend at the rear or convert the loft space, subject to planning approval. Overall, this home offers outstanding potential to become a superb long-term family residence.
