GUIDE PRICE £699,950

A striking architect-designed family home with panoramic views over the Gordano Valley set in delightful gardens and grounds. (Internal Floor Area Of Approximately 2642 Sq. Ft)

Swancombe is a truly superb family home, thoughtfully arranged over two levels and designed by the acclaimed architect Roger Dyer. Built in 1967 and inspired by his time in California and the work of Frank Lloyd Wright, Dyer created a home that embraces natural materials, light, and space — all while making full use of the property's commanding position above the Gordano Valley.

Throughout the house, Dyer's signature features remain beautifully intact, including exposed Canadian Hemlock hardwood beams, tongue-and-groove ceilings, and clever built-in storage solutions. With its unique "upside-down" layout, the home is perfectly designed to capture light and maximise the far-reaching views — especially from the 40-foot balcony which looks towards Portishead and beyond.

On entering the property, a welcoming hallway leads to a versatile study or fifth bedroom, ideal for guests or working from home. A fitted cloakroom is also located on this level. The standout space of the home is undoubtedly the stunning 40' open-plan living and dining room. This exceptional room is filled with natural light and boasts sliding patio doors opening onto the full-width balcony — a perfect spot for morning coffee or evening sunsets. In the cooler months, a wood-burning stove with adjacent built-in log store adds both warmth and character. The kitchen is open-plan to the main living space, creating a sociable, family-oriented environment that is ideal for both everyday living and entertaining. At its heart is a central island unit, providing additional workspace and a natural gathering point. The kitchen is well-equipped with a generous range of wall, base, and drawer units, complemented by integrated Neff appliances.

Just off the kitchen, a utility room offers practical space for a fridge/freezer, washing machine, and tumble dryer, keeping the main kitchen area clutter-free. From here, a further door provides direct access to the front of the property. The sunroom is positioned at the far end of the property, designed to make the most of natural light. A pitched roof with skylight windows floods the space with sunshine, creating a bright and uplifting atmosphere. Patio doors open directly onto a private, elevated terrace, providing a tranquil spot to relax and enjoy open views across the garden — perfect for morning coffee or unwinding at the end of the day.

Lower Floor – Bedrooms & Bathrooms

Downstairs, you'll find four generously sized double bedrooms, all with fitted wardrobes. The principal bedroom includes a private en-suite bathroom, while the remaining bedrooms share a well-appointed family bathroom. Additional storage can be found off the hallway and within bedroom two, and bedroom three offers direct access to the garden via patio doors.

Outside

The gardens at Swancombe are truly a standout feature. Originally hewn from the hillside — with locals recalling that rock was blasted to create a level platform — the setting now feels both dramatic and serene. The main lawn benefits from a sunny south-westerly orientation, bordered by mature trees and ornamental planting, providing a private and peaceful outdoor space. A particularly

practical feature is the side pathway, which offers direct access around the property — ideal for moving garden waste, tools, or bikes without having to pass through the main house. A footpath from the private road leads down to Clapton Lane, providing convenient access to the village post box and the much-loved local pub, The Black Horse Inn — perfect for an easy stroll to meet friends or enjoy a relaxed evening out

Garage & Driveway

The property benefits from a substantial double garage, providing secure parking and excellent storage space. To the rear of the garage is a dedicated boiler room housing an oil-fired Grant boiler, serving the property's central heating and hot water system. Within the main garage space, you'll also find the solar control hub, managing the property's solar energy system. In addition to the garage, there is off-road parking available on the driveway to the side of the property, offering convenient access for multiple vehicles.
