## FARM BUILDINGS, YARD & LAND

There are a range of general purpose agricultural buildings within a good sized yard area at Newlands Farm. These consist of the original **Agricultural Barn** of steel portal frame construction under a pitched corrugated fibre cement roof with **Lean To** additions to the north and south creating various storage and self contained rooms along with additional open plan storage space into the main building itself.

To the south east of the building is a detached general purpose **Hoppers Hut** of block construction housing store room along with wash room with wash hand basin. Detailed floor plans of the buildings are overleaf and the total floor areas are 3,111ft<sup>2</sup> for the Barn and 187ft<sup>2</sup> for the Hoppers Hut. Water is connected to the yard but there is no electricity. The yard in its entirety extends to 0.69 acres. There are far reaching views from the building to the north east and the estuary.

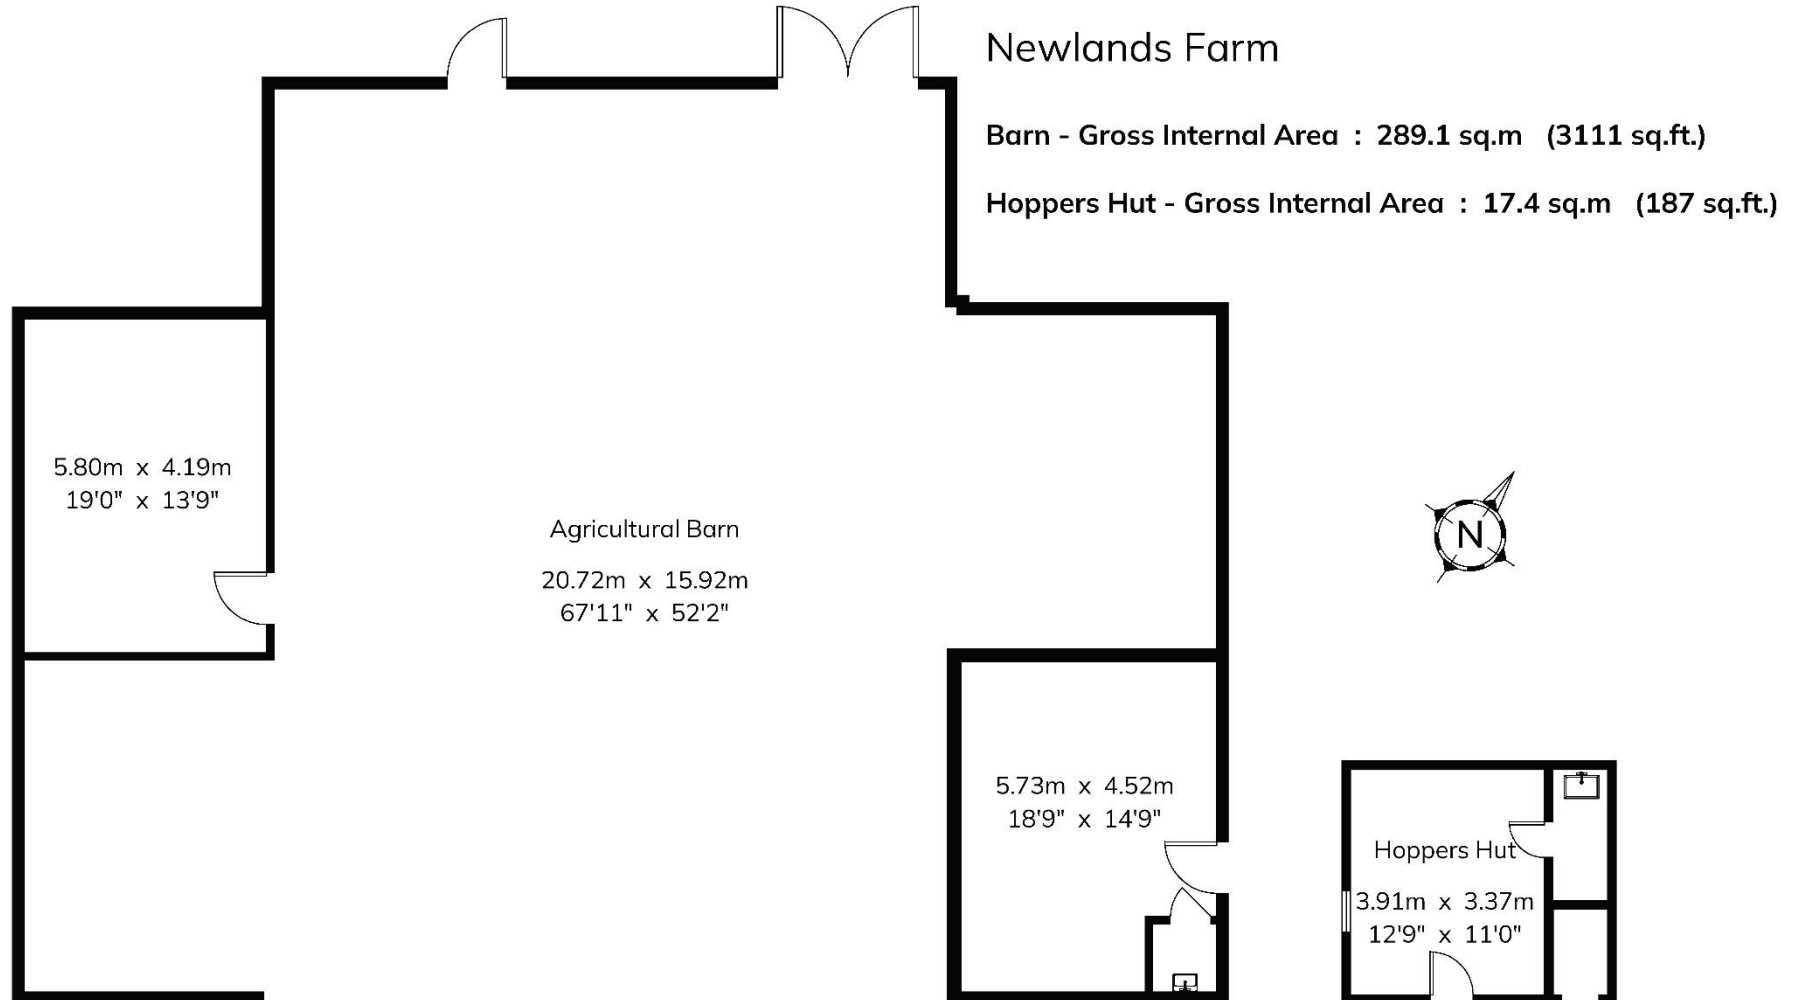

The land on the property runs north east all the way to the Housefield Road and extends to 9.7 acres. The majority of the land is laid down to grass and cut for hay during the summer months. The most north eastern corner that fronts the Housefield road is currently used as game cover for the local shoot under a hand shake agreement. The cover has been planted this year and the current owner lets the shoot beat through the cover during the shooting season.

The entirety of the property to be sold extends to 10.39 acres and is shown outlined in red on the Boundary Plan overleaf.
