Easter House , Thirlby, YO7 2DJ
Price Guide £549,950

Set within the village of Thirlby, just a short drive south of Thirsk, Easter House offers a rare opportunity to acquire a home in a well-established rural setting. The property sits within open countryside with a long-standing village backdrop, while remaining accessible to the A19 and wider road network. A practical choice for buyers seeking space, privacy, and a quieter pace of living without being isolated.

The Property

Easter House is a four-bedroom cottage set within the village of Thirlby, positioned to take advantage of the surrounding countryside and open views. The property has been extended by the current owners, with the roof space converted to increase bedroom accommodation, resulting in a home that offers both flexibility and usable space across two floors.

The ground floor is arranged to suit day-to-day living, with three separate reception areas allowing for clear definition between living, dining and quieter spaces. A breakfast room sits alongside a central dining kitchen, which provides a practical hub for the house. A separate sitting room offers a more private area, while the sun room connects directly to the garden and brings in natural light throughout the day. In addition, there is a study, a utility room and a ground floor shower room/WC, giving options for working from home or accommodating guests.

To the first floor, the extension into the roof has created four bedrooms of good proportions. The principal bedroom offers comfortable space, with the remaining rooms suitable for family use, guests or office space if required. A family bathroom serves the floor, and there are eaves storage areas providing additional, practical storage.

Externally, the property benefits from a generous side garden which is mainly laid to lawn and positioned to enjoy the outlook across open fields. The space is usable and private, with enough room for seating, outdoor dining or general family use. The setting is one of the key features of the property, offering a quieter environment without being remote.

For parking, there is space to the front of the home though a parking bay may be created to the front elevation by simply removing the hedge.
