Some More Information

From the entrance door you lead into the glazed porch where a further door gives access to the reception hall which provides access to the ground floor spaces. The sitting room runs from front to rear with a semi-circular bay window to the front elevation and window to the rear overlooking the garden, whilst to the centre of the room there is a fireplace with stone surround and hearth with inset multi-fuel burner. A pair of sliding doors lead from the sitting room to the formal dining room which in turn has sliding patio doors leading to the uPVC conservatory constructed upon a brick plinth with glazed roof and door to the side.

Adjacent to the dining room is the kitchen which is fitted with a range of eye and base level cupboards and drawers beneath the worktops, space for a range cooker and is completed by the matching extendable dining table. A further door leads from the kitchen to the utility room where there is a wall mounted gas central heating boiler along with further inset sink with space for two appliances beneath. A door to the side leads out to the rear garden along with a further internal door leading to the double width garage with up and over door and fibreglass roof. Completing the ground floor accommodation is the cloakroom with a low level w.c. and wall mounted wash hand basin.

Open tread stairs lead from the reception hall to the first floor where the landing provides access to all five bedrooms. Bedroom one has two windows to the rear along with an obscure window to the side, twin fitted wardrobes with a door between leading to the en-suite shower room. The en-suite is fully tiled and fitted with a shower cubicle with thermostatic bar mixer shower, low level w.c. and pedestal wash hand basin, completing the room is a linen and storage cupboard. Bedroom two also has a window overlooking the rear garden and is a double sized bedroom, whilst bedrooms three, four and five are also double rooms, all with windows to the front. Completing the first-floor accommodation is the main bathroom which comprises corner bath low level w.c. and pedestal wash hand basin, with an obscure window to the rear elevation.

Externally

To the front of the property the tegular block paved driveway which leads to the integral double garage is flanked by an area of mature tree and shrub planting. The side pathway is gated to the front and leads to the well-established rear garden, which is dissected into a number of different areas, commencing with the paved terrace to the immediate rear of the property, ideal for outdoor dining or a pot garden. This gives way to areas of formal lawns which seamlessly blend with the flower, shrub and hedge planting. Towards the centre of the garden the semi-mature wild meadow setting is planted to create and nurture a habitat for butterflies and bees along with a wildlife pond surrounded by a rockery.

Throughout the garden there are a number of fruit trees, an area set aside

for vegetable and salad planting whilst towards the foot of the garden there is a greenhouse, shed and a summer house, along with some mature trees screening the property from the rear. This is an area we understand that the previous owners had proposed the construction of a single storey property, however no planning permission was ever sought in respect of this. To the side of the property behind the baker estates board is a rain water collection facility and a further greenhouse. The exceptional grounds and gardens here offer spaces of sunlight and shade throughout the day and the well stocked beds and planting areas really make this garden something to be seen and admired.
