The introduction of Lower Ling House to the open market for the first time in over 25 years presents a rare opportunity to acquire a sizeable family home, set within a peaceful and picturesque rural location between Henley-in-Arden and Stratford-upon-Avon.

This impressive property offers four principal features, making it particularly well suited to a large family with diverse requirements. These include a well-appointed indoor swimming pool (efficiently heated by an air source heat pump), two self-contained flats (which were granted planning permission for holiday let use in December 2009), two paddocks, and a range of outbuildings including; a garage complex, two stables and dog pens.

The property is situated on a quiet no-through road, set at the top of a hill, in the small hamlet of Newnham. The nearby village of Wootton Wawen is approximately 2.5 miles away and provides a range of amenities to include; village shop, post office, primary school, two excellent pubs, village hall, and renowned Anglo-Saxon parish church. More extensive shopping and leisure facilities can be found in Henley-in-Arden and Stratford-upon-Avon, both of which are around 5 miles away, and offer a wide selection of primary and secondary schooling. The property also benefits from convenient access to the M40 motorway (J15), which, in turn, provides fast links to the M5, M6 and M42 motorways. Additionally, regular direct rail services to London Marylebone are available from Hatton Parkway railway station, located within easy reach.

This property is set back from the road behind a pair of entrance gates that open onto a substantial block paved driveway, which leads around to the right and up to the parking area in front of the two self-contained flats. A separate metal gate from the roadway also leads to the parking area and from there, a diamond braced timber gate opens into the paddock.
