Offered chain free, new to the market is this fabulous three bedroomed detached bungalow, tastefully and thoughtfully self-built in 1987 and sited on a very good sized plot, with the bonus of both front and rear parking. Offering very spacious interior living space, the wide hallway with a striking decorative slate wall feels like the home's central spine, with interconnecting options directly to the kitchen whilst still leading to all internal accommodation. There is a large lounge/living room with a striking feature wall and slate fireplace with a marble hearth. The lounge connects to the dual aspect conservatory. A door opens to a walk through dining room, giving links to the very modern kitchen. Porcelain tiled throughout, the kitchen area is fitted with a number of eye level and base level soft close, gloss white storage cupboards and drawers, accompanied by straight edge work surfaces with matching upstands. There are integrated cooking appliances including a hob, oven and grill plus a microwave along with the addition of a breakfast bar, all under spot lighting. Open access is given to the galley style utility room which has separate, tall integrated fridge and matching integrated freezer. In addition, there is an integrated washing machine and integrated dishwasher below a work surface with a sink, again all under spot lighting. From the utility room, an interconnecting corridor completes the loop and links two of the three bedrooms. The first bedroom has a built-in wardrobe along with the addition of a fitted wardrobe, the second another fitted wardrobe. The third bedroom is accessed across the hallway and also has the added benefit of a fitted wardrobe. All three bedrooms are complemented by a very modern, fully tiled shower room with a large, walk-in thermostatic rain head shower. There is a transitional space between the utility area which links to the large, integrated double garage with electric roller door where you will find plumbing for an additional washing machine and space for a condenser tumble dryer if so required. A very useful addition to the rear of the garage is an area that could be re-purposed to a home office, study or hobby room with a direct link to the rear garden. Externally, to the front, a block paved driveway with parking for four/five vehicles leads to the double garage. Bordering the driveway is a lovely laid to lawn area benefiting from a south facing aspect, with a mature border of bushes, hedging, shrubs and trees which will surely appeal to those with gardening tendencies. A gravelled feature with mature plants and shrub borders a pathway to the front of the property. Effectively three quarter wraparound with options to increase to fully wraparound, the rear garden can be accessed to a pathway to the side of the garage which ultimately leads to a rear driveway with further parking for up to two vehicles. The rear garden is a real sun trap with a more or less westerly aspect to benefit from the afternoon sunshine. There is a summerhouse looking back towards the house along with a useful tool shed. Low level decorative walls create clearly defined areas throughout with a laid to lawn area split by a central pathway leading to a decorative arch. There is a fish pond and raised decking area along with patio seating areas to complete the layout.
