Shared Ownership

Shared ownership is a great way to get on the property ladder, or to continue your journey as a home owner. It is a part-buy, part-rent scheme designed to help people who are not in a position to buy a home outright on the open market. Shared ownership allows you to buy a share of a home through cash or a mortgage and make rent repayments on the rest, with the opportunity to increase your share over time. You can progress to full ownership in most homes.

Buying a percentage means your deposit and mortgage repayments will be much smaller than usual. You should be able to put down at least 5-10% deposit on the share of the property you're interested in, plus have money set aside for things like removals and legal fees. You can buy with a partner, friend or sibling but you don't need to. Your household income will need to be under £80,000 a year and you must not be able to purchase a suitable property on the open market. You must also have no mortgage or ownership commitments with any other property whilst owning one of ours.

If you make an offer on this property, you will have to be approved by ACIS Housing who will assess your application and undertake financial affordability checks. With a 25% purchase, the rent that will need to be paid to ACIS Housing would be £362.66 per month.

If you want to buy more shares over time, you can. This is called 'staircasing'. So, as you get more shares, you'll pay less in rent as a result.
