Vendor's Comments

"We are only the second family to have lived in this house since it was built in 1931 and have loved every minute of it. It is in a fabulous location within walking distance of so many things including great schools, shops, cafes, restaurants and even a cinema. If we want to go further afield, there is a wide range of bus routes into town. We spend a lot of our time in the wonderful back extension that opens directly into a private and quiet garden.

Even if it is raining, we can open the sliding doors and feel like we are sitting outside. When the sun shines, the size of the garden means that there is always a sunny spot to be found. A real oasis. We also really enjoy the fantastic views across the city from the top of the house – great for hot air balloon and firework watching! We will be very sad to leave but it is time for us to downsize and let someone else enjoy all the house has to offer."

Garden

The property is complemented by a beautiful, mature garden that has been lovingly developed by the current owners. Primarily accessed from a level rear lane, it also benefits from a pretty terraced front garden leading from Bishop Road.

Directly accessed from the kitchen/living space, a large decked area offers an ideal space for al fresco dining, bordered by a range of mature shrubs. Opposite, a separate seating area is positioned adjacent to a small pond, featuring an array of attractive plants.

Beyond here is a large lawned area, bordered by flowers, shrubs and climbers. A separate, sunny seating area is tucked away towards the rear of the garden.

Ground Floor

The property retains a wealth of original period features in good condition, evident from the moment you step through the storm porch and into the vestibule. This entryway is fitted with a beautiful tessellated floor and handy storage cupboards, which in turn lead to the central hallway with its original doorway and stained-glass windows.

The front of the home houses two reception rooms: a large bay-fronted lounge, which features a log burner, picture rails, coving, and a ceiling rose. Adjacent is a smaller reception room currently in use as a study.

The open-plan kitchen/living space to the rear is a true highlight of the ground floor. Commissioned by the current owners, this impressive space features floor-to-ceiling sliding doors and windows on two aspects, providing a seamless flow to the beautiful rear garden. The kitchen area is fitted with distinctive base and wall-mounted units, and stone worktops to create a contemporary feel. In the dining area, a large skylight provides a further abundance of natural light.

A handy under-stairs WC with a hand wash basin, and a utility room located off the kitchen/living space, complete the ground floor.

First Floor

The first-floor landing provides access to four well-proportioned bedrooms and the family bathroom.

Bedroom two is a handsome, bay-windowed double bedroom with impressive, elevated views of Bishopston, Westbury Park, and Redland. This room retains an attractive period fireplace, picture rails, and exposed floorboards.

Bedrooms three and four are almost identical in size, both of which offer a view of the rear garden as well as picture rails and feature fireplaces.

Completing the first floor is the family bathroom, which features a WC, basin, and a shower. The final bedroom, a smaller double room, would make an ideal study or cot room.

Second Floor

The master suite occupies the entirety of the second floor. It is a spacious and naturally bright room, with large windows that provide outstanding panoramic views on three aspects. The room additionally offers eaves storage cupboards and dressing area.

The en suite bathroom is fitted with a four-piece suite, including a contemporary freestanding bath and separate shower, all complemented by matching tiling. A dormer window in the en suite offers yet more impressive views.

Garage Workshop

Situated at the rear of the garden is a detached, secure garage, a superb addition to the property that was commissioned by the vendors. The garage offers excellent proportions, allowing for both a parked car and a dedicated workshop space. Further benefits include double glazed windows, a side access door, mezzanine storage, a wired internet connection and power supply. Sat adjacent is a parking space.
