

2a, St. Andrews Road, Macclesfield, SK11 8HA

As quirky as they come. A stylish conversion forming part of All Saints Church, this property offers an individuality that is most welcome to the market. Having been taken back to the bare brick, it has been revamped with considerable effect to provide a smart, crisp home in which to live.

Warmed by gas-fired central heating, the ground floor has been designed with 'entertaining' in mind, as an open plan layout with quality fixtures and fittings fronts onto the private enclosed garden, beyond which there is private off-road parking. There is also an additional reception room, ideally suited as a study or even an extra bedroom/nursery if required.

On the first floor, there are two bedrooms and a bathroom.

Macclesfield is a thriving business centre and market town with excellent local amenities and a choice of modern leisure and sports facilities. The town is situated on the Cheshire Plain, at the edge of the Peak District National Park with its picturesque beauty and extensive walks.

Residents of Macclesfield have access to good transport links including national motorways, major roads and train networks, including the West Coast Line direct to London. Manchester International Airport is only thirteen miles away by road. Greater Manchester is within comfortable daily travelling distance and there are regular bus services to neighbouring towns.

Proceed out of Macclesfield along Park Lane proceeding through the traffic lights at Bond Street and take the third turning on the right into Crompton Road. Take the fourth turning on the left into Brough Street West and St Andrews Road can be found on the left hand side.
