Price Guide £450,000

Silverman Black is delighted to offer this exceptional three bedroom split-level maisonette located on the award winning BedZed development - only five minutes walk from Hackbridge BR station & shopping facilities. Built in 2002, the Beddington Zero Energy Development (BedZed) is a pioneering and unique complex of energy saving properties - offering residents well insulated/low carbon homes which are warm in the winter and cool in the summer - whilst keeping energy bills to an absolute minimum! 8 Dunster Way is an exceptional example of these homes - affording bright, airy accommodation with masses of south facing windows incorporating two good size bedrooms, a sun room and a family bathroom on the ground floor with a further sun room, a generously proportioned living room, kitchen, third bedroom and a cloakroom on the floor above. Outside, there is a good size front garden at ground level - plus a rare "sky garden" approached via a bridge from the first floor level. Residents parking is located only a short walk from the property. The development has been featured in numerous programmes due to the eco-friendly/energy saving concept of the complex and was a finalist in the Riba Sterling competition in 2003, but most residents see to comment on the vibrant sense of "community" on BedZed - where a communal garden, cafe, and a community hub (which runs classes and fitness programmes) all help ensure a "village atmosphere". In terms of facilities, Hackbridge Village is approx 0.25 miles away offering a large Lidl supermarket, several excellent local schools and a BR station affording fast & frequent services to London Victoria (via Clapham Junction) in around 25 minutes. Mitcham Junction is about a mile distant (20 mins walk or one stop on the train) - where commuters can pick up the Wimbledon to Beckenham tram service (via Bromley and East Croydon). Viewing of this exceptional and unique home is very highly recommended - so call today to book your appointment to view
