Summary

Little Fosters was constructed by one of the area's leading luxury house builders on the former site of arguably one of the area's most well-known homes, noted for its wonderful grounds, unique sea as well as harbour views and it's close proximity to the beach.

This penthouse could lay claim to having some of the best views anywhere in the area and it was constructed for the developer's own occupation so as one might imagine it occupies the very best position in the development and it was constructed to an enormously high specification.

The accommodation extends to nearly 2,850 square feet comprising three bedrooms, three bathrooms, three / four receptions and a study. Interior features include coffered ceilings and beautiful joinery. The view from the principal bedroom is spectacular by any standards and there is an impressive amount of terracing and balcony space on offer extending to over 1,000 square feet. The interior is largely original and ready for cosmetic upgrades but for connoisseurs who simply want the best this is a unique opportunity. In addition to all of the above, the penthouse benefits from a large store and an 8.6 metre parking space in the underground garage,
