"A modern, energy efficient family home with parking for four vehicles, three bathrooms and open green space, set in a quiet cul de sac."

Offered to the market chain free, this beautifully presented 2020-built home delivers far more than a typical three-bedroom semi-detached property. Designed with modern family living in mind, the property combines generous proportions, excellent specification and a highly desirable setting overlooking open green space.

The accommodation is both versatile and well-balanced, with a bright and spacious layout throughout. Of particular note is the genuine third bedroom, offering true flexibility for growing families, home working or guest space-unlike many comparable homes where the third room is limited to a study.

A key standout feature is the three bathrooms, including a well-appointed ensuite, ensuring convenience and practicality for busy households. The home's modern construction also brings the benefit of enhanced energy efficiency, helping to keep running costs low.

Externally, the property continues to impress with a driveway providing parking for up to four vehicles, a rare advantage in this price bracket. The position within a quiet cul de sac enhances both privacy and safety, making it an ideal long-term family home. To the front, the attractive outlook across open green space further adds to the sense of space and setting.

This is not a typical starter home, but a property designed for buyers looking to settle and grow-offering the space, specification and lifestyle benefits often associated with larger or detached homes.
