A True Chocolate Box Cottage Set On The Banks Of The River Dye. The Traditional Appearance Blending Seamlessly With A Fully Refurbished High Specification Interior

Entrance Hall, Two Bedrooms, Shower Room, Open Plan Living/Dining/Kitchen. Private Parking

Forming part of a traditional terrace, set beautifully on the banks of the River Dye with woodland outlooks and the running water within earshot, Rowanside is a classic example of a pretty chocolate box cottage.

The beautifully restored stone exterior opens up to reveal a remarkable, high specification interior. Having only very recently undergone an extensive programme of refurbishment, Rowanside has all the benefits of a modern, energy efficiency home within the beautiful shell of a stone cottage. With impeccable attention to detail and no stone left unturned, the interiors are immaculate; clean, crisp and contemporary without losing the period charm.

A much loved main residence for the current owners who have taken such care in upgrading this property, it presents a perfect opportunity for those seeking the same, within this established and picturesque village close to Duns. Equally the low maintenance nature of the home make it an ideal prospect for those in search of a weekend retreat or commercial holiday let venture.

The interiors have been well planned to make excellent use of the space. The ground floor hosts two peaceful and relaxing bedrooms with woodland outlooks as well as the very smart fully replaced shower room. Excellent concealed storage under the stairs.

Upstairs the open plan layout is cosy and inviting, having been cleverly designed and planned. The windows to the front overlook the river and with the windows open, the sound of running water is the perfect backdrop to this relaxing space. The fully glazed rear elevation maximises natural light and further enhances the feeling of space. Centred around a cosy log burning stove and with a very smart fully integrated kitchen towards the rear.

To the front of the cottage lies a private parking space with the river beyond. Access could be formed down to the river side which would create a wonderful seating area.
