GENERAL COMMENTS

Hunrosa House is a very impressive detached modern house that was built to a very high standard approximately ten years ago. The location is fantastic, just yards from the beach yet tucked away in a very peaceful setting. The whole property is beautifully presented throughout with large, well proportioned rooms. The accommodation includes a very spacious dining hall, cloakroom, utility room, boiler cupboard housing hot water tank heated by the air source heat pump, kitchen/breakfast room and large sitting room. On the first floor is a spacious landing and three double bedrooms. The master has a good size en suite shower room and there is a large family bathroom with bath and separate shower. On the second floor is a fourth double bedroom with large en suite bath with shower over. Outside at the front is private parking for four vehicles and access to a superb detached garage with light and power with plenty of room for a van or large car. At the rear of the garage is a very useful room that could be enclosed to provide a separate home office if required. The rear garden is extremely private and enclosed within dense boundaries. A large terrace provides plenty of sitting out space and steps lead to the level lawn that is ideal for children and pets. The garden room has potential to create a home office and is included in the sale. The house is very modern with high levels of insulation and along with the air source heat pump ensures very low running costs. An internal viewing is essential.
