- Top two floors could be either two one/two bedroom apartments or HMO studios
- Rear access
- In the heart of Kensal Rise
- Four floors at 630 sq ft per floor

### Chamberlayne Road, NW10 3ND

This property on Chamberlayne Road in Kensal Rise presents a compelling mixed-use investment with both stable income and real development potential... spanning approximately 2,521 sq ft across four floors, the building is currently configured with a commercial tenant — a longstanding chemist — occupying the basement and ground floor. That lease, which generates £26,400 per annum, is secured under the Landlord and Tenant Act, with a rent review due in 2026 and expiry in 2028. The commercial aspect benefits from strong footfall due to its location on a lively high street surrounded by other established businesses

The first and second floors are arranged as a maisonette, offering roughly 1,260 sq ft of space ideal for conversion. This could take the form of a single spacious apartment, two separate one/two-bedroom flats, or potentially multiple self-contained studio units. Depending on the layout and finish, rental values in Kensal Rise suggest this residential portion could generate upwards of £3,600–£4,000 per month. That would push total building income to somewhere in the region of £70,000 per year.

Kensal Rise is a high-demand area, especially among young professionals and creatives, thanks to its transport links — Kensal Green and Kensal Rise stations are both nearby — and its thriving bar, café, and retail scene. Chamberlayne Road, in particular, is one of northwest London's most active and evolving high streets.
