Approached via a private gated driveway, the home immediately sets the tone with its beautiful stone façade before entering into a welcoming entrance hall that opens through to the impressive open plan sitting and dining room. Exposed beams, natural stone detailing and a soft, neutral colour palette create a warm and inviting atmosphere, while large windows frame those incredible countryside views. Immediately located off here is a handy cloakroom with integrated storage, giving access to a downstairs WC. The dining area features bi-folding doors that open directly onto the rear sun terrace, perfect for entertaining and family living, while the sitting area is centred around a charming multi-fuel burner, with access to the main staircase and the basement level just off. To the rear is the separate, spacious lounge, a cosy yet elegant retreat with its own multi-fuel stove and tri-folding doors opening onto the sun terrace, capturing spectacular sunset views. Moving back towards the front is the bespoke fitted kitchen/breakfast room, the true heart of the home, complete with Siemens appliances, tall pull-out larder units, wine cooler, coffee station and a substantial central island ideal for informal dining, all complemented by characterful exposed stone walls. An adjacent utility room provides ample storage with its own external access, ideal after countryside walks. Completing the ground floor is a generously sized family room filled with natural light, offering superb versatility as a home office, gym, playroom or as a home cinema.

The lower ground floor cellar level adds yet another impressive layer of versatility to this exceptional home, providing an excellent range of practical storage rooms alongside a luxurious private sauna and shower suite, creating a true wellness retreat within your own property. Ideal for post-walk relaxation after enjoying the surrounding countryside, this level also lends itself perfectly to further possibilities such as a home gym, wine store or additional hobby space, offering superb flexibility to suit modern family lifestyles while maintaining the character and functionality expected of a home of this calibre.

The first floor is accessed via a bright and spacious landing which currently doubles as a home office and reading area, giving access to all four double bedrooms. The stunning master suite enjoys uninterrupted rear views through elegant sash windows, with ceiling beams overhead, fitted cupboards, a dressing room and a luxurious en-suite featuring a freestanding bath and separate walk-in shower. Bedroom two is another generous double with its own three piece en-suite, while bedrooms three and four are both well-proportioned doubles, one with fitted wardrobes and the other currently utilised as a home office. A modern, spa-inspired four-piece family bathroom completes the upper floor.

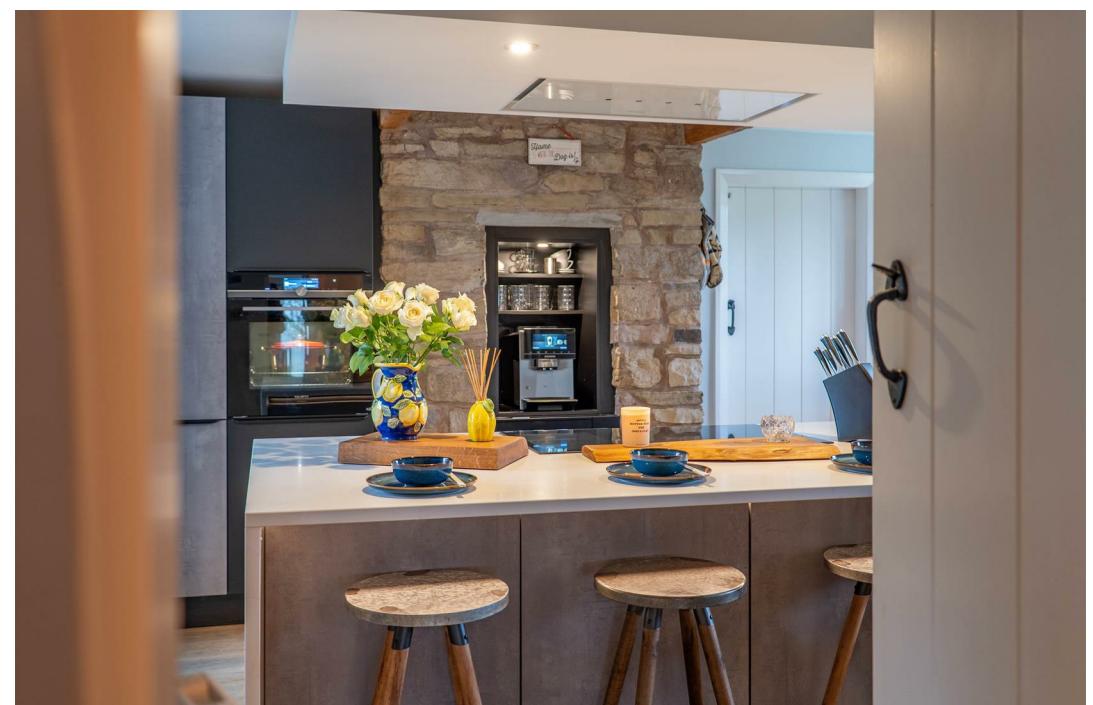

Externally, the property is accessed via a gated private driveway providing parking for at least four to six vehicles, with multiple stone-built outbuildings offering excellent additional storage, including a dedicated wood store. To the side, landscaped gardens set a striking first impression on approach, while a covered seating area also features a stone-built, wood-fired pizza oven, ideal for social occasions. Leading around to the rear, elevated decking and Indian stone paved terraces unfold to reveal the most breathtaking uninterrupted countryside views, perfectly positioned to enjoy golden sunsets throughout the summer months. The gardens are a true lifestyle feature, with manicured lawns, a greenhouse, planted borders, fruit bushes and vegetable plots creating a wonderful balance of beauty and practicality. The gazebo with a wood-fired oven forms a perfect year-round entertaining space, while stone steps lead down to the lower lawn and additional storage areas.

The home also benefits from an impressive eco-friendly setup including a 4kW solar panel system with FIT payments, solar-powered hot water, app-controlled Wiser heating with smart TRVs to every radiator, oil central heating and the option to include a 10kW battery storage system.
