Welcome to this stunning cottage, aptly named Cobble Cottage, where history and character blend with modern elegance. With exposed bricks and wooden beams, the property catches the eye. With several sought after features, the location also benefits from local amenities, transport links and facilities all within a stones throw. The three well proportioned bedrooms and open dining and kitchen space make this property the ideal home for families or those seeking a comfortable retreat.

This attractive cottage offers a deceptively spacious layout set across two floors, benefiting from an extended first-floor footprint over the side ginnel to provide generous accommodation throughout.

You enter the ground floor directly into a bright and comfortable front-facing lounge, creating an inviting main living area that leads seamlessly through to the generous kitchen at the rear. Fitted with a wrap-around worktop configuration, breakfast bar seating, integrated cooking appliances, and a sink overlooking the rear garden. All together the space feels luxurious with an abundance of traditional character and modern finishings throughout. A private side ginnel with double access doors provides convenient, secure outdoor passage between the front and rear of the home as well as a side door into the kitchen.

The first floor is accessed via the central staircase leading to a landing that connects all rooms. The staircase itself has beautiful exposed bricks which when highlighted with lighting make a striking feature wall. Thanks to the gained space over the ginnel, the upper floor boasts three well-proportioned bedrooms. The two bedrooms to the left elevation both benefit from convenient built-in storage cupboards, while the third bedroom overlooks the front of the home. Completing the accommodation is a modern four-piece family bathroom situated to the rear, fitted with a full-sized bathtub, separate walk-in shower enclosure, washbasin, and toilet.

Located at the rear of the property, a private outside space tucked away from the main road. It provides a calm and open space to enjoy some fresh air and features a small patioed space and a raised decking area. The space feels private and benefits from all day sun as the garden is south facing.
