TENURE & COUNCIL TAX BAND

Leasehold - We cannot verify the Tenure of the property as we do not have access to the documentation. Purchasers must ask their legal advisor to confirm the Tenure.

Title contains restrictions or restrictive covenants

Here is a summary but a property lawyer can advise further: - No transfer or other dealing of the registered estate may be registered without a written consent signed by the proprietor of the Charge dated 24 July 2006 in favour of Aviva Equity Release UK Limited. Plain English: you cannot complete and register a sale, transfer or similar dealing affecting the title until Aviva (the charge holder) gives written consent. 'Disposition' means any change in ownership or grant of rights over the property (for example a sale or sale with a mortgage). - No transfer (other than registering a charge) of the registered estate may be registered without a written consent signed by Mark Lindsay Buckland of 51 Stannington Road, Morpeth, NE61 6NH or his conveyancer. Plain English: for most dealings other than creating a new charge (mortgage), Mark Lindsay Buckland must give written consent to register the deal; his consent is required in addition to any lender's consent. - Lease restrictions on dealings: the lease contains prohibitions or restrictions on dealings (for example on assignment, subletting or other transfers) and any dealing done in breach of those lease restrictions will be excluded from the effect of registration. Plain English: the lease itself imposes rules about selling or letting the flat; if you break those lease rules the transaction may not be protected on the title and the landlord could have remedies. You should read the lease to see exactly what is prohibited or controlled.

We have been advised the current annual service charge for 2026/2027 is £1668.35 per year.

We have been advised that no ground rent is payable.

We have been advised that there are approximately 972 years remaining on the lease, which was a 999 year lease from 1991.

JAPANESE KNOTWEED

Japanese Knotweed is known to be present within the wider development. A specialist treatment and management plan is currently in place to control and prevent further spread, and this is being actively monitored. Whilst Japanese Knotweed can pose risks if left unmanaged, appropriate remediation measures are widely recognised and, when implemented correctly, are effective in mitigating potential issues. Buyers are advised to make their own enquiries and seek professional advice if required.
