2.47 x 1.90 (8'1" x 6'2")

## Overview

The stairs (including storage) lead to the first floor and master bedroom with en-suite, two further bedrooms, family bathroom and storage. Garage and two parking spaces (except plot 8 which has two parking spaces only). Interior space is 1,096 sq ft.

Each home has been thoughtfully designed with attractive, plot-specific finishes. Depending on the property, you'll find a blend of white or stone render, straw-yellow render, or classic red brick – all paired with either pan or plain tiled roofs and complemented by crisp white windows. The result is a collection of homes with charm, individuality, and kerb appeal. Our Sales Advisor will be happy to provide further details and examples.

Built by an award-winning, privately-owned local developer, this well-planned development offers generous outside space and peace of mind with a 10-year Premier Guarantee warranty. Traditional building materials and quality craftsmanship combine to create homes designed to stand the test of time.

Inside, the attention to detail continues. The fully fitted kitchens come complete with an eye-level electric oven, four-burner gas hob, stainless steel/glass splash-back, extractor hood, integrated fridge/freezer, and dishwasher. Depending on the build stage, buyers may also enjoy a choice of stylish kitchen units, wall and floor cupboards, and profile worktops with matching upstands.

## Outside

Every home benefits from efficient gas-fired central heating with combi boiler systems (in 3-bedroom homes and 4-bedroom homes with a single en-suite). Larger 4-bedroom homes with two en-suites (such as the Knowle and Blenheim) are equipped with condensing boilers and cylinders for added comfort. To further enhance energy efficiency, photovoltaic solar panels are fitted to all plots.

The bathrooms feature Duravit sanitary ware in crisp white, paired with contemporary taps, concealed cisterns, and wall-hung toilets for a clean, modern look. Heated chrome 'Pisa' towel rails add a touch of luxury, while shaver sockets and thermostatically controlled radiators ensure practicality.

Modern lighting is included as standard, with recessed downlights in the kitchen, entrance hall, bathroom, en-suite, and cloakroom. To the outside, recessed downlights or coach lights are fitted at both the front and rear of each home.

Practicality extends to the exterior too, with a mix of car ports, single or double garages, and parking spaces, all with infrastructure ready for a 7KW electric vehicle charging point. Rear gardens are enclosed by 6ft close-boarded fencing and topped with quality topsoil, while front gardens are attractively laid to turf or shrubs.
